### THE HEBREW RACE.

#### Something About The Promised Land and Its Probabilities.

The recent massacre of the Jews in one of the provinces of Russia has called the attention of the world again to the prophesy of the Bible that they shall be gathered together in the "Promised Land."

It is a remarkable thing that every prophesy made in regard to the Hebrew race, the most unique and wonderful race on the earth to-day, has been literally fulfilled, save the one prophesy of gathering them together. For nineteen centuries they have been scattered over the face of the earth. In every country, in every climate under the sun you will find the Jew. He speaks all the languages of the world. He understands all the customs of the world and wherever he dwells he is a factor in commercial wealth. Persecuted, despised, spat upon everywhere even in the land of his inheritance; legislated against and oppressed he has accumulated more of this world's goods than his fellow man of any other nationality. In Europe, Asia, Africa and America, wherever I have seen him, I have known him. He carries the racial distinctions which cannot be mistaken.

The old Egyptian passed away centuries ago. The ancient Greeks and Romans, who in turn ruled the world, are to be found only in history and literature. The Jew alone of all the ancient people, with more to contend with than all of them combined, remains as much a Jew as when he resided in Solomon's Temple upon Mt. Moriah.

Is not this fact, when all the circumstances and conditions are considered, as much a miracle as any others we read of in the Bible? And does not this establish the fact, beyond controversy, that he has been preserved as distinctive from all other people of the world to be finally gathered together in a country of his own? There are several things that suggest themselves in connection with this idea: How many Jews are there in the world and from a human calculation will the "Promised Land" support them? From the best statistics at hand there are something less than 7,000,000 Jews. Of this number there are about 6,000,000 in Europe and of those in Europe about 3,000,000 are in Russia. This number is much smaller than most people suppose. There is hardly a State in the United States which could not support 7,000,000 people while a number of the States would support twice that number. It will be argued, however, that Palestine is not as fertile as any of the States in the union. For a person familiar with the Holy Land that will have to be admitted. But Palestine was once a land which flowed in milk and honey and when it did it supported many more than 7,000,000. Syria was under the rule of King David and Solomon and can be reasonably counted in connection with Palestine. The two countries now have a population exceeding 3,500,000. It will only be necessary for two people to live where one lives now for all the Jews to subsist.

The present population of Syria and Palestine are not to be compared with the Jew in any respect. They are thrifless, indolent and of a very low order of intelligence, while the Jew, wherever you find him, is thrifty, industrious and very intelligent. The whole valley of the Jordan is now practically a waste, while with irrigation, which could be obtained with small expense, it would blossom like the rose. The soil from the hillsides has been allowed to wash away by sheer negligence, and could in a few years be restored. The Jews, if restored to their native land, (and it should be taken from the Turk) would carry with them more than they took out of Egypt.

They went out of bondage ignorant, destitute of all national character and with only such things as they could borrow from their Egyptian masters. They would carry to Palestine untold millions of money to irrigate the land, to build manufacturing and cities. They would carry the new thought of commercial development and enterprise from America. They would carry from Europe a knowledge of all forms of government and a comprehension of all the world has known or done. They would carry from the Orient a knowledge of the production of

the soil suited to the Land of Promise. They would carry an ability to succeed that has never been equaled by any people in all time. They would carry a brain power which to-day can make and unmake the nations of the earth and with all these things combined Palestine would not only afford a place of refuge for the persecuted Jew, but he would make it a world power that would send out its influence to the uttermost parts of the earth. I do now believe that the Holy Land can support the Hebrew race, but I also believe that God has preserved them for that purpose and the time is not far distant. The movement has commenced and thousands are returning. The massacre in Russia is likely to turn many to the home of their fathers.—H. A. Sommers in Elizabethtown News.

#### Hot Weather Weakness.

If you feel fagged out, listless and lacking energy, you are perhaps suffering from the debilitating effects of summer weather. The symptoms indicate that a tonic is needed that will create a healthy appetite, make digestion perfect, regulate the bowels, and impart natural activity to the liver. This, *Herbine* will do; it is a tonic, laxative and restorative. H. J. Freegard, Propr. Grand View Hotel, Cheney, Kan., writes: "I have used *Herbine* for the last 12 years, and nothing on earth can beat it. It was recommended to me by Dr. Newton, Newton, Kas." 50c at R. C. Hardwick's.

Rome, Ind., June 9.—Mrs. J. H. Groves, of this place, has extracted a piece of glass from her finger that was imbedded in the flesh twenty years ago.

#### Tax on Babies.

Extreme hot weather is a great tax upon the digestive power of babies; when puny and feeble they should be given a few doses of *White's Cream Vermifuge*, the children's tonic. It will stimulate and facilitate the digestion of their food, so that they become strong, healthy and active. 25c at R. C. Hardwick's.

The insurance on the stock of the Owensboro Pants Manufacturing Company finally has been paid.
